

KROMPRINT

/ PRINTABLE CHROME FILM /
Car wrap and decoration

And if you dared to go for a 100% chrome look?

*Stand out and let yourself
be surprised by our new
KROMPRINT printable
chrome film!*

The **KROMPRINT** film was specifically designed to enhance your prints with a **metallic shine**.

This film prints remarkably well with both latex and UV ink technologies; and it can adapt to the most complex shapes: 2D/3D (mirrors, rivets, furniture corners...).

There is no better way to create **eye-catching designs** with **chrome highlights**. And whatever your total wrapping or decoration project, you can now demonstrate your individuality.

Product characteristics

Printable **chrome gloss** film, **silver** mirror finish

- High-performance **cast** PVC
- Permanent acrylic adhesive
- **125 µm** thickness
- **HEX'PRESS** liner for easy application
- Compatible inks: **LATEX** **UV**
- Outdoor durability* / Unprinted film:
1 year (vertical exposure)
- Outdoor durability* / Printed film laminated with
PC500G2: **up to 5 years** (vertical exposure)
- Available in 1370 mm x 25 m

Product benefits

KROMPRINT film offers **optimum printability**, allowing the **chrome mirror** effect and the vivid colours of your graphics to show in full.

The **HEX'Press** liner allows air to be released, for an **easy application without any creases or bubbles**.

The HEXIS +

For 3D surface applications, it is recommended to print the film with latex inks and to laminate with **PC500G2**. For 2D surface applications, protect your printings with **V750** laminates and **VCR750** dedicated especially for UV prints.

(*) The actual durability of the product depends on several parameters such as the conditions of exposure (climate, angle of exposure), substrate, etc. /
