

# SELF-ADHESIVE DECORATION AND PROTECTIVE FILMS

BOAT WRAP  
CATALOGUE

## WHO IS HEXIS?

HEXIS are a leading manufacturer of self-adhesive films intended for visual communication.

HEXIS invest 3% of their turnover in R&D and employ 380 staff members worldwide. The company has been granted ISO 9001 and ISO 50001 certification.

The company specializes in high-performance cast PVC, PU and latex films, it also develops innovative product ranges for digital printing professionals, sign makers, signage and vehicle marking specialists, indoor and outdoor decorators, as well as textile marking professionals.

The company's activity is divided into six major product categories:

- Products designed for plotter cutting
- Films for full wraps and decoration
- Films for textile marking
- Media for large format digital printing
- Surface protection (anti-microbial, anti-graffiti, anti-scratch, anti-corrosion...)
- Paint Protection Film

The HEXIS Group have an international presence through their subsidiaries in French West Indies, Germany, Italy, Spain, Sweden, Denmark, and in Australia, as well as through a distribution network over the five continents.

# APPLICATION STEP BY STEP

## MARINE PROFESSIONALS' BEST CHOICE:

- ▶ Hull: Skintac HX45000 series; HX190WG2 + PC500G2 laminate
- ▶ Stripes for decoration: Suptac S5000 series
- ▶ Sails: VCXR101WG1 or VCXR201WG1
- ▶ Indoor & outdoor application with various aspects [gloss, matt, alligator, carbon, leather...]

## FOR PROTECTION:

- ▶ BODYFENCE
- ▶ VRK for marine stickers

### 1 PREPARE THE HULL

- ▶ Remove as many fittings as possible to ease the application
- ▶ The hull surface must be smooth and non-porous
- ▶ The hull must be cleaned using a suitable liquid

### 2 FILM APPLICATION

- ▶ The hull can be fully or partly wrapped
- ▶ Large choice of colours
- ▶ The film adapts to the hull shape thanks to its conformability
- ▶ Possible to combine coloured films and printed films

### 3 CUTS

- ▶ The film is cut around the various accessories
- ▶ The fittings can be removed and reinstalled
- ▶ The edges are sealed with a varnish
- ▶ Wait for 24 hours before launching in the water

## WHY CHOOSE HEXIS SELF-ADHESIVE FILMS?

- Films are conformable and can be applied on any surface, including the most complex
- Covered surfaces are waterproof and easy to clean
- As opposed to paint, HEXIS films do not require much drying time and leave no harmful and unpleasant smells
- Our films can create textured surfaces, such as alligator, leather or carbon effects
- HEXIS boasts a catalogue with over 150 colours and effects (opaque, transparent or textured)
- HEXIS quality: our films are manufactured using top-quality raw materials and pigments which guarantee long-lasting colours and impressive sustainability

SOLUTIONS TO SUIT  
ALL YOUR NEEDS!

- ▶ For your windows and glass, HEXIS offer a choice of transparent, translucent and etched-glass films
- ▶ Easy to apply: redesign your interior without any work!
- ▶ Versatile: HEXIS films can be applied on all substrates or existing furniture

More information:

[https://www.hexis-graphics.com/documents/fichespouse/document\\_en/fps\\_bateau\\_FPP\\_anglais.pdf](https://www.hexis-graphics.com/documents/fichespouse/document_en/fps_bateau_FPP_anglais.pdf)  
<http://catalogues.hexis-graphics.com/c/boat-en>

On their main site in France, HEXIS are proud to have created a cutting-edge R&D laboratory with the latest scientific equipment. It boasts an innovative development process for multi-layered cast films combined with a structured adhesive which avoids creases and helps evacuate bubbles during the application.

► **COST-SAVING**

Up to 70% depending on the boat size  
No need to put the boat in a booth  
No need to remove the mast  
No drydock needed => no surveillance fees

► **TIME-SAVING**

For a similar 15 m boat: 2 days to wrap / 3 weeks to paint  
Take advantage of the annual refit to give your boat a new look

► **DURABLE**

Durability comparable to painting for standard recreational use

► **SLIDING**

Skippers report that a full wrap is lighter than a complete painting and has higher sliding properties

► **UNIFORM**

It is difficult to achieve colour uniformity over large surfaces with conventional painting, it is not an issue with HEXIS self-adhesive films

► **RESALE**

Give a fresh look to your boat before reselling it with a minimal investment

# THE BENEFITS OF SELF-ADHESIVE FILMS

## ▸ CARING

The film offers an additional protective layer which, when removed, leaves the hull like brand new

## ▸ RENOVATING

Painted boats can be polished only for a limited number of times [gel coat layer is thin]. Renovating even an old hull is possible with Hexis

## ▸ COMPATIBLE

No counter-indications! Compatible with standard polyester gel coat, polyurethane varnish, steel and aluminium hulls ...

## ▸ CUSTOMIZED

An excellent customization-on-demand solution for professional sellers

## ▸ REMOVABLE

Easy removal to change the style to suit your mood

## ▸ ENVIRONMENT FRIENDLY

No health, safety and environmental impact as opposed to paint

## DECORATION AND PERSONALIZATION

HEXIS are launching the SKINTAC HX45000 series, which is currently the top of the range when it comes to quality. Conceived thanks to the Hexis R&D department, it is a new-generation multilayered cast film.

Entirely conformable, it can be easily applied on any indoor or outdoor surface. Its high performance and conformability allow it to be used on curved or textured surfaces [welds or rivets].

Thanks to its surface sliding properties, it offers easy and time-saving application.

A REFLECTION OF  
**YOUR STYLE**

HEXIS films are the ideal solution to decorate and design your boats, your interior or your work area.

► **Cabins, living-rooms, kitchens**

The antimicrobial film ensures antibacterial protection 24 hours a day, 7 days a week thanks to its constant antibacterial efficiency allowing to inhibit the development of germs. Its efficiency is proven against the following strains:

- Salmonella enterica subsp enterica
- Listeria monocytogenes
- Staphylococcus aureus
- Escherichia coli
- MRSA
- P.aeruginosa

# SAIL DECORATION

Compatibility printing inks

For all boat sails made of composite fibres, HEXIS offer customization possibilities with VCXR201WG1 and VCXR101WG1.

To save weight and thus optimize your boat performance during boat races, use the VCSR201WG1 and VCSR101WG1, to get lighter sails than with a VCXR adhesive.

Important: it is essential to know the composition of the sail fibres prior to choosing the self-adhesive film for application on sails.

DESIGNED BY HEXIS  
RISE TO ANY CHALLENGE

## HULL DECORATION

Compatibility printing inks

Do you wish to customize your boat hull for a race or to make it look unique?

Use our cast PVC films [HX190WG2] or PVC-free films [HX500WG2] which are suitable for all concave and convex surfaces of your boat.

CUSTOMIZE  
YOUR CLOTHES

STYLE  
REFLECTS  
PERSONALITY!

HEXIS offer a wide range of colour and printable films intended for marking on all types of textiles. Customizing windproof and waterproof jackets (nylon, polyester) is now effortless with the UFLEXCOLD!

UFLEXCOLD is intended for application on synthetic fabrics not supporting high-temperature transfer of other Flex films.

▶ EASY-TO-WEED  
LITTLE BREAKAGE

▶ MACHINE WASHABLE  
UP TO 40 °C

▶ LAYERING OF  
COLOURS POSSIBLE

▶ CUSTOM COLOURS  
ON REQUEST

▶ 100% MADE  
IN FRANCE

▶ WATER-BASED  
MANUFACTURING

▶ ECOLOGICAL  
SOLVENT-FREE

# BODYFENCE

PAINT PROTECTION FILM

## PAINT PROTECTION FILM

With its thickness of 155-160 microns, the efficiency of BODYFENCE is undeniable: scratches and stone chips are over! This polyurethane film also prevents the paint from ageing under sunlight exposure. The film can be removed and replaced without altering the original hull paint. This invisible film keeps your boat hull in perfect condition and thus avoids expensive painting work, especially for resale.

- ▶ Protection of waterlines
- ▶ Protection of sensible areas exposed to rubbing / frictions by fenders
- ▶ Protection around exhaust pipes
- ▶ Protection of indoor areas sensitive to scratches
- ▶ Matt or gloss finish

Your boat is...forever young!

# NEW GENERATION PROTECTIVE FILM

## KEY BENEFITS OF THE BODYFENCE

### 1-Self-Healing

If the surface is scratched, the BodyFence protective film will regenerate with the help of heat from the sun or hot water.

### 2-ULTRA TRANSPARENT

The BodyFence protective film is a highly transparent film developed to protect the boat without altering its appearance.

### 3-SELF-CLEANING

The BodyFence protective film contains an anti-adhesion component. Thus, dust and dirt will adhere much less to the hull of your boat. Cleaning will be less frequent and significantly easier.

### 4-CONFORMABILITY

HEXIS have developed an easy-to-apply film. Thanks to BodyFence, you will save 30 % on the application time, due to its high conformability and ease of application.

### 5-DURABILITY

The HEXIS BodyFence is guaranteed for 7\* years against:

- Yellowing
- Cracking

### 6-EASY INSTALLATION

Due to its technical performances, this film offers easy application, with no creases and no traces.

## NEW GENERATION PROTECTIVE FILMS

WITH OUR NEW VRK  
LAMINATES, YOU CAN  
PROTECT YOUR SPEED  
BOAT AND JET-SKI

VRK series are optimised for cold lamination of digital prints intended for short term marking kits on motorbikes, off-road vehicles, water crafts and other sports equipment... These strong laminates are specially engineered to protect logos and graphics while maintaining optical transparency.

- ▶ Optically clear
- ▶ High thickness
- ▶ High adhesive properties
- ▶ Resistant to abrasion and rubbing

## VRK LAMINATES FOR STICKERS

- ▶ 300µm : **VRK300B** GLOSS FINISH AND **VRK300M** MATT FINISH
- ▶ 480µm : **VRK480B** GLOSS FINISH
- ▶ Intermediate calendered PVC film
- ▶ Pressure-sensitive solvent-based acrylic adhesive
- ▶ Recommended digital printing vinyl: **VCXR201WG1** with extra-reinforced adhesive

## SOLAR FILMS

Solar films applied on windows and portholes protect against sun rays and offer optimal security. The main benefits of HEXIS solar films are:

- Customisation and enhanced aesthetics
- Protection from prying eyes
- Better window resistance if broken
- Heat reduction in cabin area
- Reduction of UV impact (premature cabin-ageing)

# STYLE REFLECTS PERSONALITY

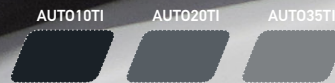

## CHARCOAL

## TINT

## TITANIUM

## CLEAR

**THE HEXIS ADVICE:** the lighter colour your boat is, the darker the solar film should be

### CHARCOAL

- These films are specifically intended for high-end products
- They allow for worry-free sailing, protecting any valuables in your cabin from curious onlookers (radio, laptop, valuables, etc)
- Transparent black

### TITANIUM

- The titanium range is specifically intended for dark-coloured boats
- These films give a fresh and cosy look to the cabin with an additionally spectacular improvement to the indoor comfort
- Transparent silver-grey

### CERAMIC RANGE

- HEXIS offer ceramic technology with CLEAR85CR and CLEAR86CR solar films.
- These films come with a neutral highly transparent shade while offering an increased comfort in terms of UV and infra-red rays protection.
