

# Lounge Chair

The whole world of technical textiles.

Made for you.

# PONGS<sup>®</sup>

### **Giving rest at it's best**

The Lounge Chair by PONGS® is an esthete with a striking look and clear lines. At first glance, a real eye-catcher, then a smart two-seater. The firm padding ensures a comfortable fit, for well-being and relaxation. The Lounge Chair is a retreat for quiet meetings or a break all to yourself. Whether it's a productive workplace or an oasis for relaxed breaks in between, you can boost your creative reserves and recharge your batteries.

### **Double the comfort**

The combination of innovative design with extremely raised armrests and the sound-absorbing properties of the upholstery reinforces the feeling of peace, security and makes the Lounge Chair unique in this form. AKUSTICO® and SILENCIO® by PONGS® are not only powerful in terms of function, but also a visual highlight thanks to the homogeneous crepe fabric and the uniquely three-dimensional surface. In addition to the large variety of colors, both textiles can also be individually printed on request.

### Cover

AKUSTICO®  
SILENCIO®

### Weight

approx. 80.0 kg

### RRP

from 2300.00 €/unit uni  
from 2500.00 €/unit printed

# AKUSTICO®

## Soft Feel

Surprise your senses with AKUSTICO®. The striking look captivates the view, but only the wonderfully soft feeling makes this acoustic textile a true experience. A special weaving process guarantees uniform appearance from every perspective. Because AKUSTICO® is particularly resistant to abrasion, it is optimally suited as a cover fabric for furniture and innovative design elements with an effective sound-absorbing function.

Thanks to the multi-faceted color spectrum, AKUSTICO® blends perfectly with modern architectural materials such as concrete, slate or wood. The acoustic perspective at a glance: AKUSTICO® gives individual pep for innovative interior designs.

### Product characteristics

Sound-absorbing fabric  
Striking look thanks to crease-resistant crepe weave  
Available in 17 colors or digitally printed on request

### Fire resistance class

Flame-retardant according to B-s1, d0, DIN EN 13501-1, NFPA 701-2015

### Acoustic information

Sound absorption value 0.90 / A  
Acoustic certificate (type of assembly E-50) according to DIN EN ISO 354

# SILENCIO®

## Dynamic three-dimensional

For that special something: SILENCIO®. The acoustic fabric with striking three-dimensional optics absorbs sound waves, breaks them and thus influences the sound perception positively. SILENCIO® fascinates not only by reduced clear structures and a technically modern appearance, but by its perfect liaison of function and aesthetics. Sound-absorbing properties enhance the surround sound, the striking surface creates an interesting play of light.

SILENCIO® is available in various colors, but can also be printed digitally with a high degree of detail on request.

### Product characteristics

Sound-absorbing textile  
Unique, three-dimensional woven fabric  
100% Trevira CS  
Available with 2,5, 5 and 10 mm diamond sizes
