THE BENEFITS OF HEXGLASS DECORATIVE FILMS

PRESERVE PRIVACY & TRANSPARENCY

provides privacy yet allows natural light to pass through

VISUAL APPEAL & STYLE

turns windows into architectural elements

PROTECTION

maintains the condition of windows against daily wear and tear

EASY MAINTENANCE AND INSTALLATION

INTERIOR DESIGN

can be applied to windows, doors, and glass partitions (shopping centers, restaurants, hotels, banks, medical practices, clinics, town halls, schools, spas etc.)

COST EFFECTIVE

recreates the different textures of glass on a self-adhesive film, for decorative projects on a strict budget

ULTRA-CLEAR TRANSPARENT COLOURS

The polyester liner gives the transparent film a high degree of transparency and prevents visual distortion of objects placed behind a window.

 EN13501-1 Fire/smoke certification

DICHROIC EFFECT

MIAMI

- Clear finish
- Metallic shades in red/blue tones

DUBAI*

- Clear finish
- Bronze effect metallic shades

 M1 Fire/smoke certification

MIAMI

TEXTILE EFFECT

LINPRINT*

- Printable woven canvas
- Semi-transparent canvas finish

The LINPRINT fabric is **easy to print** and to **install**. Beyond its **fire-resistant** properties, it offers a certain **resistance to sunlight**, which provides enhanced **thermal comfort** in all seasons.

It successfully combines originality, refinement and practicality.
